Idea

- ▶ First project idea
 - Bus stop (Already developed)

- ▶ New project idea
 - Sport Finder
 - Sport events in the area of Lappeenranta

Saimaannorppa

Motivation

- ▶ At the moment there people don't have the opportunity to see all the places to practice sport in the area of Lappeenranta.
 - ▶ It would be nice to show all the sport events that will take place in the different places to practice sport.
- 

Goals

- ▶ To inform people of all the facilities to practice sport that exist in the city
 - ▶ Promote sport, with Sport Finder will be easier for people to find places to practice different sports.
 - ▶ Encourage people to participate on events
- 

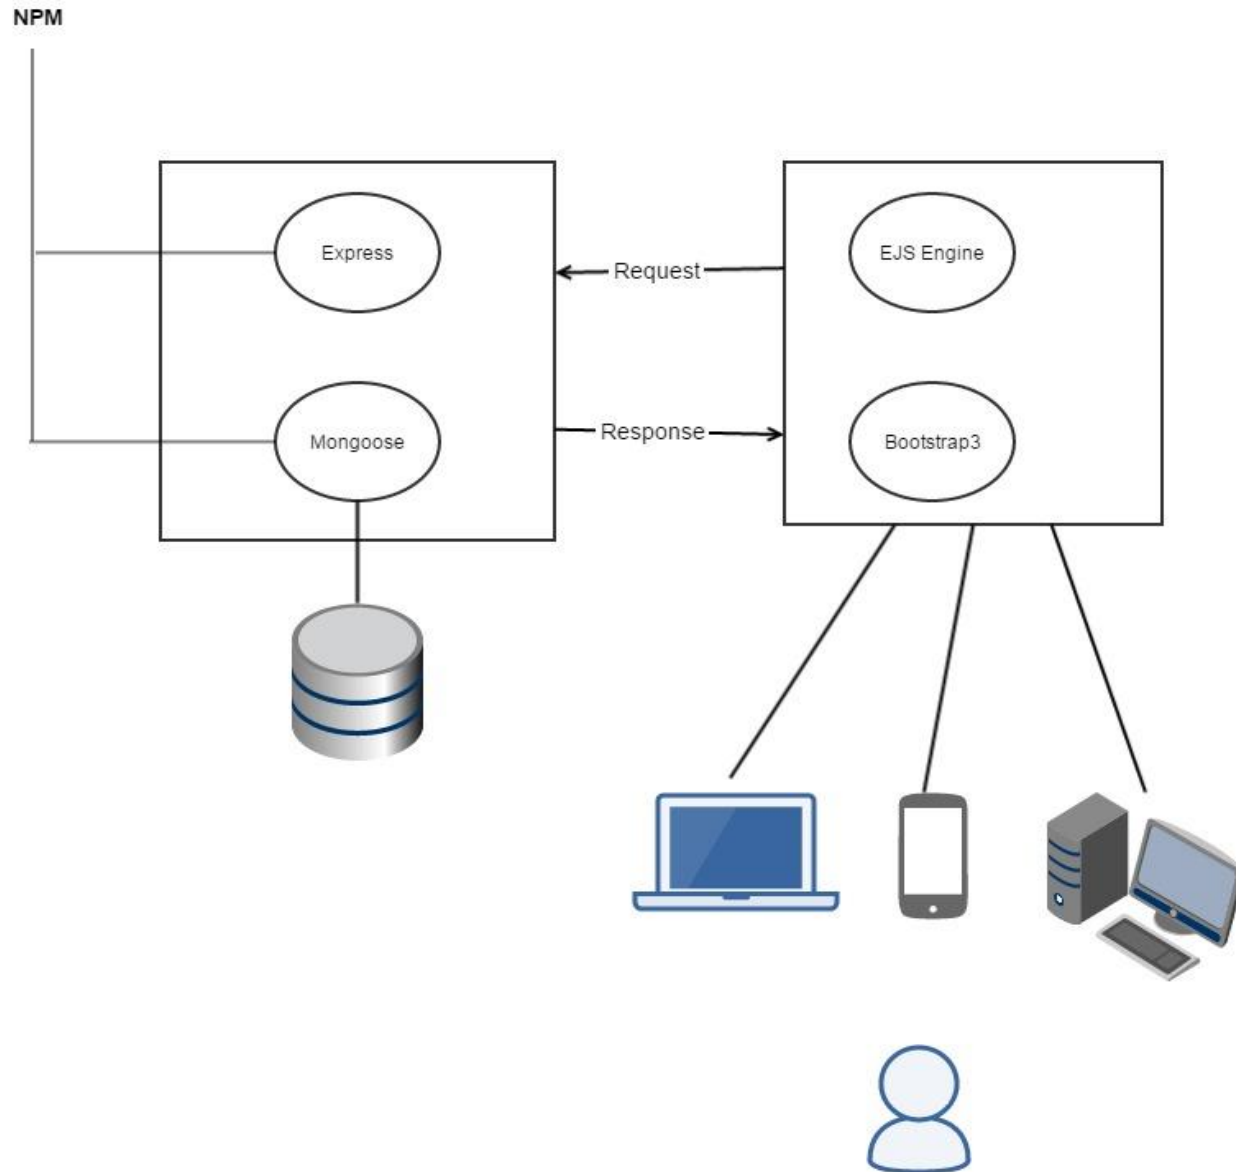

Technology Used

- ▶ Node.js
 - ▶ MongoDB
 - ▶ Express
- 

What is implemented

- ▶ Show sport facilities by type of facility
 - ▶ Show the facilities located in the map
 - ▶ Show all the events that are in the area of Lappeenranta
 - ▶ Create, Edit and delete events
- 

Design Plan

Open Data

- ▶ Here <http://liikuntapaikat.fi/lipas> you can find all the information about all the places in Finland where you can practice different sports.
- ▶ Our task is to bring this information to the user -> feel more comfortable accessing it

Thank you!!!
