The Store Info
Stinfo

Mikael Sommarberg, Miikka Lahtinen & Julia Tasa

Project Overview

- ❏ **Stinfo is a grocery store info**
  - ❏ Shows the stores nearby
  - ❏ Opening hours
  - ❏ Check the price(s) of product(s) in the selected (or nearby) store (Foodie.fi, Kesko?)
- ❏ **Customers**
  - ❏ All citizens
  - ❏ Especially (poor) students
- ❏ **Goal**
  - ❏ Easy way to check if the store is open
  - ❏ What is the nearest store and if that store has the product that is wanted

Team

- **Julia Tasa**
    - User-interface design and application styling
- **Miikka Lahtinen**
    - API-Queries and open data functionality
- **Mikael Sommarberg**
    - Integrating and "Reactifying", common project tasks

Julia Tasa

❏ **Interested in user-oriented user interface design**

❏ **Bachelor's thesis was about usability and user experiences**

❏ **Knows what looks good**

Miikka Lahtinen

- ❏ **Mostly self taught, starting from Pascal to current languages and willing to learn more. Current interest is in C# and Rust and doing projects in Python and JS.**
- ❏ **Doesn't have previous experiences of JS frameworks, but is interested in them.**

Mikael Sommarberg

- ❏ Has been developing with "old tools" such as jQuery and AngularJS for some time, and wishes to take a new look at javascript frameworks. Enjoys programming with python.
- ❏ Has some experience in build management and software integration.
- ❏ Always interested in learning something new and useful.

Schedule

Wednesday 3.1.18	Thursday 4.1.18	Friday 5.1.18
❏ Brainstorming ❏ User-interface design ❏ Implementation ❏ Presentation	❏ Implementation continues ❏ Slides for Friday's session	❏ Finishing touch ❏ Preparing for presentation

Mobile Application Drafts
