Idea

Elder wants to contact her children, nurse etc. easily because...

- As the children are worried about their old parents the old parents are often worried about their children. It is important to get the information that everything is ok.
- Elder may also have some special needs for example from a healthcare person.

Solution

- simple and easy-to-use interface
- no needs for typing (pre-written SMS & email, voicemail)
- pressing button once starts automated functions (Call->No answer->SMS)
