# What is Twitter?

- Twitter is a free social-networking and micro-blogging service
- Active user posts about 20 posts per day (1 post per hour)
- Twitter reports about breaking news faster than any other service

# What is a problem?

- Users don't want to register in Twitter
- Users want to read tweets, but don't want to write
- Previews of the links are not available
- No real-time feeling

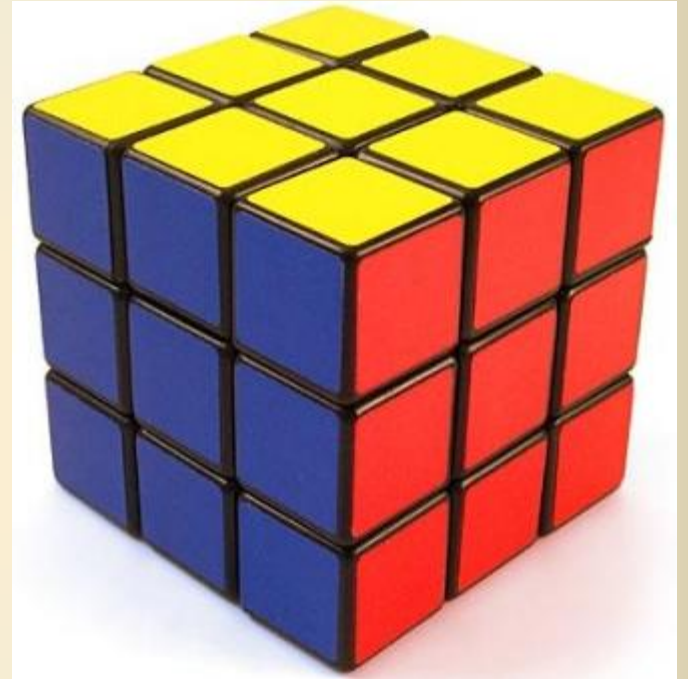

# TwiTodday

- TwiTodday changes the way you experience internet
- Sit down, relax and enjoy the world speaking

# Features

- No need for account
- No extra clicks
- Real-time feeling
- Today's hot topics
- User-friendly interface
- Instant preview
- ... and more. Discover by yourself!

Enjoy!

Twitter is today. TwiToday is tomorrow.
